Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No:	AB/68/23/DOC
Site Address:	Land at Ford Road Arundel
Description of works:	Approval of details reserved by condition imposed under AB/135/20/OUT relating to Condition 14 - Travel Plan.

Thank you for your internet representation made on 29th August 2023 which has been recorded as no objection with the comments as follows:

OWPC61472

We have concerns about the accuracy of the 'Existing Situation' section.
Section 2.5 states there is good provision of cycle routes because of 'realistic cycling distance time' This completely misunderstands the danger of cycling along Ford Road. Unless and until the off-road shared paths in WSCC Walking and Cycling Strategy are implemented, this disincentive for people to cycle will not change. It is a real concern that representations to lower the speed limit have not been heeded even in the face of the extension of the built up boundary to facilitate this development.
There is no mention of Ford Station which is as important as Arundel Station - indeed has better services on some routes.
When the above Safe Routes are in place, this will facilitate more public transport usage by residents of the development.
We also cannot see any mention of the additional provision for visitor cycles not within dwelling curtilage. We were of the understanding that the Developer had agreed this would be a good idea in view of the new public open space and it's likely use by non residents, including those connecting between the South Downs National Park and Arun River Valley.
New LAPs and LEAPs. If the baseline data for predicted travel patterns is pre-pandemic, surely adjustments are needed to be considered for changing working patterns since lockdown ended?
