Hello,

The air vent seems to be acceptable

I am sure that the doors will be ok, especially if they fit the existing openings and that they will be painted to as to look appropriate for the age and character of the building

Hope this helps

Kind Regards

Martyn

Hi Martyn,

You have commented the above application having further questions which were addressed by the applicant/agent:

'We would like to use a single cast iron conservation air vent. Please see link. <https://www.castironairbricks.co.uk/product/conservation-vent-grille/>

To confirm the existing door openings are in imperial sizes which would be 2 foot 6 inches. These can be purchased from our supplies. We do not intend to alter any of the existing door openings. We can purchase doors to fit. We propose to fit colonial 6 panel fire doors to match the existing front door.'

Please let me know if it is sufficient information and you are happy to discharge condition 2.
Site notice was put on the site too late so we can't issue notice before 29/10/21 so there is still time.

Kind Regards

Maria
