CUT BACK ASH TREE TO THE BORDER OF OUR PROPERTY, OR SUITABLE NODE OF BRANCH
SEE ATTACHED SKETCH DIAGRAM

You might find it helpful to consult a tree surgeon to clarify what needs to be done.

Please state the reference number you have given the plan: PLAN 1

8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

The tree, which we understand is an ash tree, is spreading over our garden. By now it extends about 8 feet beyond our boundary fence, and its spread is increasing rapidly. If it is not cut back it will soon extend over the whole of the patio area at the bottom of our garden.
The tree is already detracting from the usability of our patio area, and this situation can only get worse if the tree is not cut back soon.
Sap from the tree is marking the patio that has just been laid.
Reference books confirm that this type of ash tree is not suitable for a domestic garden, only for woodland and parkland. When the Tree Preservation Order was made, it was surely never envisaged or intended that a tree of this type, which can apparently grow to 40 metres in height and which will spread in proportion, would be allowed to grow to its present size. It now extends over three gardens other than that in which it grows, and is still spreading.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall: ☐ Yes ☑ No

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser).

Alleged subsidence damage: ☐ Yes ☑ No

If Yes, Information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in the vicinity and its management since discovery of the damage.

9. Trees - Additional Information

Are you providing additional information in support of your application? ☑ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports etc in support of your application:

SEE ATTACHED PHOTOGRAPHS – REFERENCE: PLAN 2
