Good Morning Anita

Under item 2 of the planning permission.

We propose the following.

Replacement joinery, Skirtings and Architraves to match existing which are OG and torus through out some original we are re using, Fire Doors will propose colonial 6 panel to match the front door, drainage goes to existing in basement, bathroom electrics, i can only assume this is for extraction. Kitchen is via an air brick already on the front elevation, All bathrooms are linked and extract through an existing outlet already in place which is high level above the courtyard area, utility room and toilet extract is in the rear courtyard low level which is not visible other than from the courtyard.

Should you require any further information please let me know.

Kind Regards

Richard Lundbech
