Description of Proposed Works

Please describe the proposed works

On our original planning application (AW/44/18/HH), we had applied to raise the height of the outbuildings by 500mm, but keep original roof line. We recently started work on the outbuildings, and on removing the old asbestos roofing and after discussing with our neighbours in Craigwell lane, and our builder Steve Hodges, we decided that a better option would be to cut, pitch and tile the roof. It was agreed that this would minimise any sunlight lost to our neighbours albeit the sun after midday is over their side anyway and it would take away the need for us to have any guttering their side. For our property it will minimise maintenance and look much more aesthetically pleasing as we can use same roof tiles as we have on the main house and car port. We have designed it so that the apex line is closer to us - our neighbours have expressed that they are happy with this.
The old potting shed (glazed) which is situated right next to the outbuildings is not included in this application but is due to be replaced on a like for like basis.

Details of the pre-application advice received

I originally contacted building control in error who advised me to contact planning. I did so in order to check if I needed to apply for new planning as we had changed our minds about the roof design on the outbuildings. I also sent some photos with my email.I was advised by Freya that whilst the new proposed changes were likely to be acceptable it would be appropriate to apply for retrospective permission, hence this application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
