Subject: A/231/24/DOC

Dear Matt,

I am writing to request an amendment to the Ecological Design Strategy for the new dwelling on Land West of Avenals Farm. Specifically, I would like to discuss the proposed provision of sparrow boxes and request that these be replaced with swift boxes, or alternatively, that a clear justification be provided as to why sparrow boxes are considered more appropriate for this specific location.

While I understand the benefits of sparrow boxes, I believe that swift boxes would offer a greater ecological benefit in this instance, particularly given that they could be used by a greater number of species.

Could you please provide the requested details within one week, by the 14 January.

Kind regards,

Kathryn Welch
