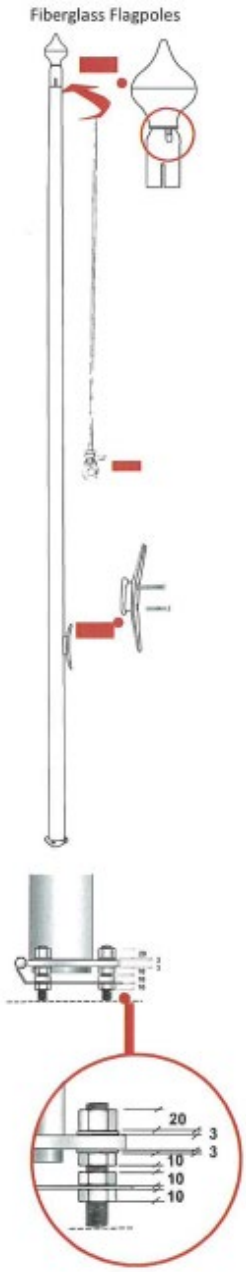
Elevation Plan

Height & Diameter

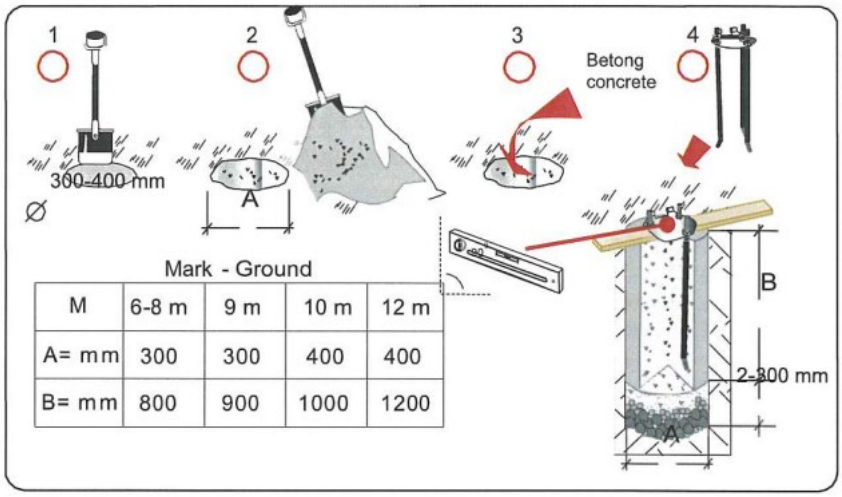


From the top of the pole to the base i.e. (Ground level) will measure 6m

The pole is 60 millimetres in diameter

How the flagpole will be secured

The drawing below represents how it will be secured into the ground – the grid also shows dimensions for a 6-8m pole plus states it will be concreted in. A = the diameter of the hole and B = the depth.



M	6-8 m	9 m	10 m	12 m
A= mm	300	300	400	400
B= mm	800	900	1000	1200
