Dear Sirs

McDonald's Restaurant Ltd – Automatic Number Plate Recognition

Please find enclosed an application for 1no. CCTV Camera mounted on 1no. pole (retrospective) and 1No. pole with 2No. ANPR (Automatic Number Plate Recognition) cameras.

The 2no. Automatic Number Plate Recognition cameras have been installed at the restaurant to address the problems with customers/drivers using the car park for long term car parking. The location of the poles have been carefully selected to monitor cars entering and leaving the car park, and to avoid blind spots. The height of the poles have been kept to a minimum, whilst meeting the operational requirements of the system, and efficiency in the number of cameras.

The height of the poles are 5m high, and the ANPR cameras are mounted at 4.5m above ground.

A number of notices have been placed around the car park, which we believe benefit from deemed consent under class 6 of the Town and Country Planning (Control of Advertisements) Regulations 2007.

Should you have any questions, please contact me.

Yours faithfully

[redacted]
