BUTLINS TEMPORARY VENUE'S

Bognor Plan Activity Usage
January 2021

WOO Architects

1.1 Proposed Concept

The purpose of this temporary venue is to enable performances to take place whilst complying with the relevant social distancing guidelines.

The proposed venue will be 40m x 65m - as indicated by the grey area on the plan - and will house a performance stage at the south end and loose socially distance audience seating throughout the space. The height of the venue will be 10m high, which is of a similar height to Hotshots that sits to the east of it. The venue is in keeping with the overall scale and proportion of the existing surrounding building on the resort.
