&

AB/109/15/L

email

Dear Sirs,

I submitted the above applications on-line via the Planning Portal on 4th August (Planning portal ref: PP-04402269), acting as Agent for the applicant, The Norfolk Arms Hotel, Arundel.

The applications are for a change of use to the rear garden of No. 20 High Street Arundel, to include use by the residents & guests of the adjacent Norfolk Arms Hotel, and for the formation of a new doorway through the existing 'party' boundary wall to provide access into the garden from the Hotel's rear courtyard.

Unfortunately, there does not appear to be any facility within the on-line application forms process to include more than one site address.

The site address included on the submitted applications forms is:-

The Norfolk Arms Hotel
22 High Street
Arundel
West Sussex
BN18 9AB

Is it possible please for you to amend the application form for both applications to read:-

The Norfolk Arms Hotel, 22 High Street, and
The rear garden only of 20 High Street,
Arundel
West Sussex
BN18 9AB

Also, both site addresses are listed buildings, but with different grades of listings:-

- The Norfolk Arms Hotel has a Grade II* listing, and this is the grade included on the applications forms.
- No. 20 High Street however, has a Grade II listing.

Is it possible please for you to amend the application forms to show the appropriate listing for each site address ?

Please do not hesitate to let me know if you have any queries, either concerning these changes or with these applications generally.

Kind regards,

TONY CHUBB.
