Dear Mrs Di Milo,

I have just received Arboricultural comments regarding your application for tree surgery at Gateway Lodge, 34-36 Felpham Road, Felpham.

As it stands the application is set to be refused, however, the Arboriculturalist has suggested alternate works.

"

- *I recommend **APPROVAL** for the crown lifting of **T1 - Holm Oak** by 5.1m as described in the application.*
- *I recommend **REFUSAL** of the thinning of the **Holm Oak and Sycamore** and also the pruning back of the Sycamore to provide a 3m building line clearance.*

ADVISORY:
Suggest they come back in seeking the following works:-

T2 – Sycamore
□ *Crown reduce in both height and lateral spread by 1.5m to 1.75m*
"

If you would like I can change the proposal to match that of the advisory. This would save a re-application and allow you to go ahead with the then approved surgery.

Do you accept the change of description?

Please respond within a week so I can change this for you.

Kind regards,

Z Denton
