Dear Sirs,

Re: Enclosed Application for works to trees

Please find enclosed an Application for tree works which are subject to tree preservation orders.

The branches of the listed trees are encroaching on my property, nearly touching my house which will cause damage before too long. Delivery or service vehicles such as lorries or dustcarts foul the branches when proceeding up Shirley's Garden.

My phone line has had to be replaced as branches dragged it down. At present the replacement line is under threat as it is already flexing because of the branches.

I have spoken to the owner of the trees (Paul Lonnen) several times over recent years and he promised to look into the matter but sadly nothing has been done. If permission for the work is passed I will request his help re payment and his permission.

Nigel Sampson of Greenbelt Tree Surgery Specialists has advised me of work to be carried out and will be available to do the work when permitted. His phone numbers are 01243 585640 or 07861 356196 should you have any queries regarding the nature of the work.

I look forward to an early reply as it would be advantageous to have this work done (subject to your permission) before the leaves start to bud. Thank you.

Yours faithfully,

[redacted]

Ethel Butler
