Dear Mr Evans

Re: The Fox Inn, Patching

I am in receipt of your response to our letter dated 06 April and enclose an updated noise management plan submitted by our client.

It is noted that planning approval for the marquee is restricted for use on Sundays and Public Holidays until 22:30hrs.

We trust that this will resolve your concern about the use of the marquee during the spring / summer season.

Yours sincerely

[redacted]

Graham Dove

ARUN DISTRICT COUNCIL PA/2/11/DOC

The Fox, Arundel Road, Patching, BN13 3UJ

Noise Management Plan (updated)

For the occasional (and seasonal only) use of a marquee in the gardens of the Foxx Inn for pre-booked functions and wedding receptions.

1) Future bookings will be taken on the basis that live bands/groups with amplification will not be permitted. This will permit, for instance a string quartet to play before and during a wedding breakfast or similar function.
2) Any requirement for live bands will be restricted to charity events or dinner dances for which an application for temporary event notices will be made.
3) The nearest neighbours will be advised of forthcoming marquee events be given a contact number of the applicant to report any excessive disturbance.
4) Noise levels at the nearest neighbours will be monitored at 22:00hrs and 23:00hrs. The findings will be recorded together with a note of the action taken.
5) The feasibility of the installation of a noise limiting device will be examined.

Mr P Moore
