Subject: RE: D2240 NORTH - Flow Control Specification (Pagham - North Parcel Pagham - North Parcel (Foreman Homes Group Limited) Hydro ref: 24_21_3706)
Attachments: HQT-167848_design.pdf

Dear Dan

Quote: 24_21_3706 - Pagham - North Parcel (Foreman Homes Group Limited)

Further to your recent enquiry, we have pleasure in attaching our quotation for the above scheme that includes:

Hydro-Brake® Optimum flow control

The current lead time is typically 10-15 working days (15-20 working days for units made from 8mm Stainless Steel) from receipt of our order confirmation and site requirements.

At order stage we will require confirmation of the outlet pipe size and cover to invert level for the flow control- please provide this information on the purchase order to avoid any delays in processing.

If you are a contractor, orders should be placed through your preferred builders merchant.

Prices given are based on all items being ordered at the same time and deliveries being consolidated where appropriate. Ordering items individually may result in additional delivery charges.

Best regards,

Sharon King

Subject: D2240 NORTH - Flow Control Specification

Hi Lisa,

Please can I obtain flow control quotation & specification, addressed to 'Foreman Homes Group Limited', for our site at Pagham (North Parcel)?

We are currently developing the detailed design having already obtained planning. Attached is the table of the proposed flow controls for this parcel. Please let me know if you require any further information also.

We will also be designing out the south parcel later this year and require this for that site also, so there will be further opportunity to quote here.

Kind Regards,

Dan Lytton MEng
Engineer
