RECEIVED

Ref: R/307/16/CLP

Dear MR. Roberts,

Having received a copy of the proposed alteration to 17 Seafield Rd. Rustington I am writing again to press our case for our privacy.

If the dormer windows are installed in the North side of the roof, facing our property, we will still have to endure our lack of Privacy. I will emphasise again the distance between the properties does not give sufficient or acceptable privacy.

If the dormers are on the South facing side only we would not be adversely affected & would personally not object to this Solution.

Do you Know if the intentions are for a single family occupancy or with seven bedrooms planned is this house to be let out as bed-sits?

If the property is to used for multi-occupancy, surely the proximity to the surrounding houses will be a factor in granting planning permission for this scheme?

Anyway we have registered our opinions to you and look forward to a solution to suit.

Yours faithfully
