RECEIVED

Dear Mrs Leeson,

WA/45/11 & WA/26/11/L - Change of Use to residential and construction of two rear extensions, The Oaks, Walberton.

As discussed on the basis of the information submitted you would support an application for the conversion of the former public house to a single dwelling, but would prefer for it not to be converted into two dwellings. In addition, you would have no objection to the residential conversion of the adjacent barn (which formerly had permission to conversion for a dwelling for staff).

On this basis I confirm that my client would like to withdraw the above applications and will be submitting revised applications in the next few days for the conversion of the building to a single dwelling.

If you have any queries regarding the contents of this letter can you please advise me asap and prior to withdrawing the applications.

Finally I thank you for your time and consideration in this matter.

Yours sincerely

[redacted]

Elizabeth Lawrence
