Dear Mr & Mrs. Booth

My apologies for the delay in getting back to you.

Yes, I believe the fungi is Honey fungus - *Armillaria mellea*; the gill type and the presence of a partial annulus (ring) would confirm this.

Anna has said that you would now like the tree removed; a tree condition report identifying the issues ect will help bolster your evidence and reasons for removal.

The report will include tree dimensions, an apprasal of the trees condition, photographic evidence relating to the fungi etc and will be produced in a PDF format (paper copies can be produced at a cost of £10.00 per copy)

My charge for a report of this nature is £180.00 + vat.

ARUN DISTRICT COUNCIL 7/1/15

If you would like to proceed please contact the office for an official quotation and a site visit date.

Kind regards
