Dear Ms Malik,

My Flood Risk Assessment is as follows:

Background

It is proposed to replace the non-habitable space with a habitable room. This represents only a marginal increase in Vulnerability.

The site lies in FZ3 and is liable to flood in the 100 years storm.

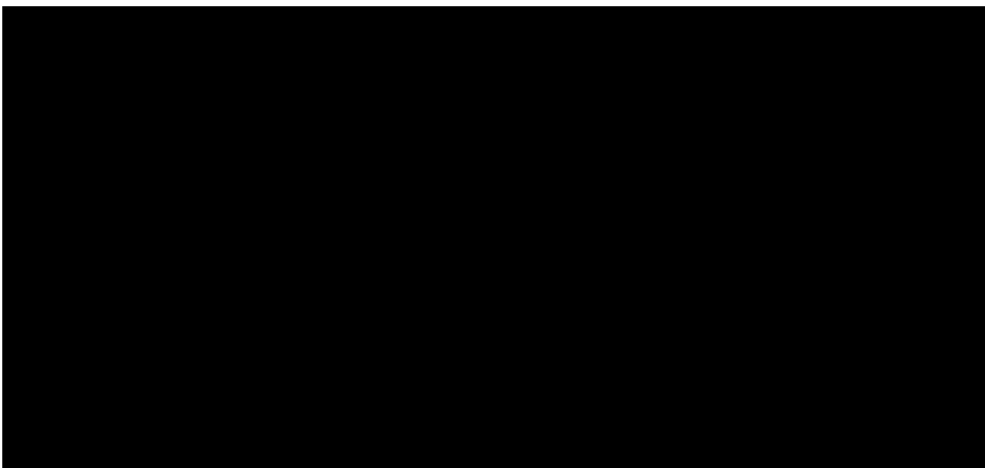

The Finished Floor Level (FFL) of the proposed extension is approximately 0.5m above the ground level at the rear.

Appropriate Mitigation

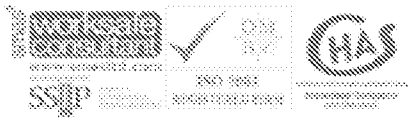

It is proposed further defensive measures are taken using sandbags to raise the height by 200-300mm. It is contended that this level of mitigation is in proportion to the small increase in Vulnerability.

Please confirm this is acceptable.

Thanks,

Dear Sir,

This application requires a Flood Risk Assessment. A small paragraph via email will be sufficient.

The Environment Agency website provides information on what should be included and provides templates for some of the lower risk applications. Please refer to the Validation Requirements List for further details and contact details for the Environment Agency.

Kind Regards
Ms Malik

Good afternoon,

I can confirm I have received the additional information sent and am currently in the process of validating your application.

Kind Regards
Ms Malik
