

STANN'S GATE ARCHITECTS LLP

Notes:

Land Development Services Ltd. own the copyright of this drawing. Their written consent must be obtained before this drawing is copied or used for any purpose other than the one for which it was supplied.

This survey has been carried out to an accuracy consistent with a presentation scale of 1:100; therefore interrogated dimensions will be within the tolerance associated with this scale. The same accuracies implied by the plotting scale are equally applicable to digital data supplied for CAD. The scale of this drawing should not be changed without permission.

Boundaries shown are not necessarily legal boundaries.

Building footprints edged with a solid line have been surveyed. Where the outline is merely hatched the footprint is indicative only.

Underground services have not been traced, but any visible surface features of underground services have been located. No allowance has been made for sub-surface manholes or other chambers or voids below ground level. Any details relating to pipe sizes etc. are taken from above ground and as such will be approximate only. While every effort is made to identify all visible above-ground features, it should be noted that there may be features obscured at the time of survey.

Spot heights at edges of roads are road/gutter levels, not top of kerb unless otherwise stated.

Trees have been shown diagrammatically (i.e. circular), however, their true shape in plan will be different.

Circled figures are heights measured from internal floor levels and are therefore unrelated to the datum.

LEGEND:

AV	Air Vent	TL	Threshold Level
BB	Bellman Beacon	TL	Traffic Light
BOI	Bolt	Tof	Top of Fence
CATV	Cable TV Cover	TofH	Top of Hedge
CH	Chimney Head Level	ToR	Top of Road
