Subject: RE: Noise reduction scheme

Dear McNeil,

I have discussed the suggested alternative window designs with the Conservation Officer.

Whilst it is positive that both designs are timber, it is unfortunate that they are still not sliding sash windows. Any revised application submitted should clarify why this is not possible.

Option one would definitely be out of character with only the lower half of the window opening utilising a top hung mechanism, whereas option 2 the whole window is 'top hung' and would 'open' and also not fully appropriate. However I suggest option 2 could be supported on the basis that it would only appear out of keeping when open and this is likely to be limited given the need for the window design revision is to reduce external noise levels.

Regards

Anita Gardner

Hi Anita

Please let me know if you receive this email.

Also please find attached the new window designs for your attention.

Your advice is much appreciated.

Kind regards

Kevin McNeil

Hi Anita

Reference: planning application 11 Wheelwrights Close Arundel

Hi Anita

I have been forwarded alternative designs for the replacement windows and would greatly appreciate your help and advice.

Please find attached alternative designs.

Could please advise as to what I should do next please? Can these designs be forwarded to the relevant parties?

Thank you in advance for your help.

Kind regards
