Dear Sirs

We are writing to lodge our disapproval of an application to build 90 houses in Ford Road, Arundel. We thought the whole idea was to move traffic away from Ford Road, not make it more congested..

Ford Road is a nightmare at the present time with HGVs going to the Ford dump, and other traffic avoiding Lyminster and the A259. If these houses were to be built, it would be more of a nightmare with the building traffic blocking the road. And when the houses were finished and occupied, how would the residents of these houses get out onto Ford Road, turning left or right?.

With the erection of the bridge over the Ford Road between the town and Ford Station, the amount of traffic is going to be totally unbearable, We will be grid locked forever.

Apart from the the above, how on earth are we going to absorb into the community all these people living in those houses;? We have so many patients logged on at the surgery now... and our schools are chocabloc.

Yours faithfully
