Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town & Country Planning (Development Management Procedure) (England) Order 2015 - Article 5

Application No: AB/135/20/OUT
Site Address: Land at Ford Road Arundel
Description of works: Outline application with some matters reserved (except for access) for the development of 90 dwellings & associated amenity land. This application is a Departure from the Development Plan, affects the setting of listed buildings & affects the character & appearance of the Arundel Conservation Area.

Thank you for your internet representation made on 28th January 2021 which has been recorded as an objection with the comments as follows:

OWPC33304

After review of the planning application I am struck by some of the changes made since the original consultation, in particular access from Dalloway Road. We were assured at consultation that this entry into the site would be reserved for emergency vehicle access only. I note that on the revised plans, this is no longer the case. Torton Hill, Dalloway and roads leading to them are quiet roads with little traffic. Our children enjoy playing and riding bicycles in these streets. Opening the site to through traffic will not only increase traffic by the dwellers of 90 new homes, but will create another rat run in Arundel as Ford road becomes busier. This will entirely change the nature of our locality and impact quality of life for all the residents of the surrounding, existing roads. Has any impact assessment been done on this?
I strongly object to the non emergency access from Dalloway Road.

Your views as made above will be considered before the application is determined.
