I would like to say I am not happy at all about the current application to build a road through our beautiful Arun countryside.

For a start Arundel is a heritage area which many people come a long way to enjoy the historical castle and cathedral and scenery.

The road would also ruin 3 villages ruin peoples gardens and environment.

Also living with the Covid pandemic more people are working from home therefore making the roads not necessary.

I think the answer is to make trains cheaper. Maybe more buses. More footpaths. Especially from Ford station.

A lot of the traffic is Mums taking kids to school or stations.

There are not enough schools or Drs places.

And building more houses on the Ford Rd will make Ford Rd impossible to get through.

A road from Crossbush to Ford roundabout The Alternative option would be more sensible and cost effective.
