Subject: Comments from the Conservation Committee - AB/137/18/HH

AB/137/18/HH Victoria House, 47A King Street, Arundel
No objection

This building definitely falls within the criteria for local listing and it is an extremely important building in the street scene. Therefore, any new timber double glazed windows must match the existing ones in every detail. This may result in the windows having to be custom made. For information the building dates to circa 1900 and was designed by the Norfolk Estate. Precise details should be submitted to the Planning Officer

The south elevation does not appear to be correctly drawn with the rooflight in the wrong façade.
