Subject: Ref AB/147/14/TC Felling Bay Tree

Hi

I would like to object strongly to the application to fell a Bay Tree at the rear of 6 Bakers Arms Hill in Arundel.

Even if the Bay Tree is forcing down the nearby wall, you don't need to cut down the whole tree.

The pressure on the wall is coming from side shoots and roots only. These can be trimmed, reduced, disposed of as an alternative.

I cannot understand, also, how an application to cut down the tree can be made by someone who doesn't even live on the site.

Cutting down the whole tree also opens up the outlook from/to our garden and house. It is at present obscured from overlooking by the owners of the land behind 6 Bakers Arms Hill. Cutting down the lovely tree is wilful and unnecessary.

Sincerely

Geoff & Carol Squire

Residents of No. 27 Maltravers Street.
