20-2-2015

Dear Mr. Karl Roberts.

AB/148/14/HH

In early August 2014 I was aware that a tall climbing frame had been erected at the bottom of the garden of No. 21 Stewards Rise, Arundel. It is about 12' high and 6' within my boundary. This dominates my garden and sitting room window, and has invaded my privacy to a high degree!

I have lived at 7 Dalloway Rd for over 32 years and have only ever

looked out on trees & hedges, which have been cut down to make way for the frame.

My late husband & I bought this house because the garden was enclosed & was not overlooked in any way.

I am all for children enjoying play. Had Mrs Ruff consulted the neighbours before building, a lot of heartache would have been avoided.

I would like the frame taken down - but at least covered in a camouflage netting. I do hope common sense will prevail.

(Mrs)
