Dear Sir,

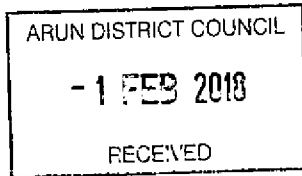

We have been very worried to hear that part of our lovely surroundings are under threat.

The area of woodland is the perfect quiet link to the surrounding woods and is home to numerous creatures that need protecting from further development.

If any trees were removed the ground would quickly become saturated.

Also the single lane approach would be inappropriate for any extra traffic. Yours sincerely

Dear Sirs,

PLANNING REF; AB/148/17/PL

We wish to object to the above planning application for the following reasons:

- 1..This wood is designated as Ancient Woodland and forms part of Tortington Common and is adjacent to the National Park.**
- 2. The development would be accessed from Priory Lane, a single track road with no passing places and which has constant rain fallout running down it from the surrounding woods and fields.**
- 3. There will be the removal of many trees and semi natural broad-leaved undergrowth, some of which is classed as habitat of principal importance in England for wildlife.**
- 4. The woods are home to Bats, Dormice, Hedgehogs, amphibians, reptiles, Roe Deer, Owls, Woodpeckers and numerous other songbirds and birds of prey.**

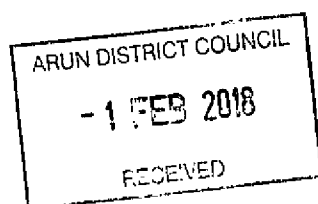

Yours faithfully,

**6 Dalloway Road,
Arundel**

Dear Sir

Re Planning Application AB/148/17/PL

The Government supports an increase in the amount of woodland in this country for environmental reasons, this will not be possible if we keep on building on Ancient Woodland. Therefore, I am opposed to the proposed development behind Birch Close, Arundel.

Yours faithfully

Edward Talmadge
