

1st February

Dear Sir

AB/148/17/PL

I am a resident of 70+ years who has lived in the immediate area all my life.

I have concerns over the proposed development for the following reasons:

1. The public footpath has been mowed without permission and the meads are designated as Ancient Woodland and is part of Tottington Canal and surrounded by the National Park
  2. England is in danger of removal of many trees - especially in the South, and this semi natural broad-leaved undergrowth is a habitat of great importance for the wildlife.
  3. The access to this development would be from Priory Road, I walk most days on this road which has no parking places and has constant drainage to the surrounding meads
  4. Everywhere there are Bats, hedgehogs, dormice, amphibians, Woodpeckers, songbirds and birds of prey.
- It is essential for us to preserve this Woodland for not only ourselves but future generations!

01.02.2017.

To whom it may concern

Ref Planning AB/148/17 PL.

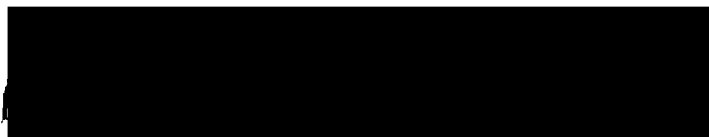

The concerns about this proposal I have are.

- ① this wood is designated as Ancient Wood land which we need to help with the pollutions and environment etc.
- ② The development would be accessed from Priory Lane, a single track road with no parking places and which has constant rain fallout running down it from the surrounding woods and fields

PJO

③ The woods are home to bats  
Herbivores, deer, amphibians, reptiles  
Roe Deer, owls, woodpeckers and  
Numerous other songbirds and  
birds of prey.

④ These are not starter homes

and a number of other animals  
are also found in the area.

It is a very beautiful area.

The area is very beautiful.
