Chalkhill (Hot) Lime Mortar

£6.75 (inc VAT £8.10)

Ecolime Hot Lime Mortar

25kg Bag

Standard Hot Lime Mortar mix is a 3:1 Hybrid using 1 part crushed limestone, 1 part sharp sand, 1 part soft sand in a hot lime mix that works out as a 3:1 mix once the Quick lime has turned in to putty in the mix. This lime mortar mix suits the vast majority of applications for pointing, building or plastering. It dries to a light cream / beige colour.

Our Hot Lime Mortars are produced from our own unique Blends of aggregates with hot lime that have been researched and developed over the years.

Weight

5 Bags - 125kg

£33.75
