DESCRIPTION ADDITIONAL INFORMATION REVIEWS (0)

Fibredlime Plaster

Fibredlime Plaster is a highly versatile and adaptable product. Suitable for new build, sustainable building and historic building alike. Applied in a single coat to a wide variety of building materials both internally or externally.

Versatility

Fibredlime Plaster enables a range of finishes from smooth to textured. As a lime putty product Fibredlime has full breathability.

Ideal for a comprehensive range of background building materials on historic and new build structures, from a 3mm skim coat to a 20mm one-coat render or plaster.
