Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No:	AB/150/21/PL
Site Address:	Land adjacent to 30 Ellis Close Arundel BN18 9LG
Description of works:	Erection of 3no. 2 bedroom dwellings with associated parking and landscape. This application is in CIL Zone 2 and is CIL liable as new dwellings.

Thank you for your internet representation made on 30th January 2022 which has been recorded as an objection with the comments as follows:

OWPC43835

During the night/evenings, the residents of Ellis close park between 10-15 cars on the proposed building location. If this area was removed for the purpose of the new dwellings I ask where are these cars going to park? The street is not suitable for on street parking due to its minimal width and the surrounding roads are already full of cars from the other houses in the area. If the residents are forced to park in the road in front of there driveways (Not all houses have a driveway) then I ask Arun District council how A fire engine would access the street in the event of a emergency with a car parked on either side of the street.

The only way this would work would be to force cars to park on the pavement which would then prevent people and wheelchair users using the pavement and in turn force them into walking in the road. I would ask a member of the council to come of a late evening and inspect the parking numbers before this application is approved once again.

Last time this application was approved someone only came early morning to inspect the number of cars in the location, conveniently when most people are at work and determined the location was "unused"

Your views as made above will be considered before the application is determined.
