Re: National Grid Ford Road Arundel

Further to your request I have pleasure in forwarding our costs to carry out the works at the above site.

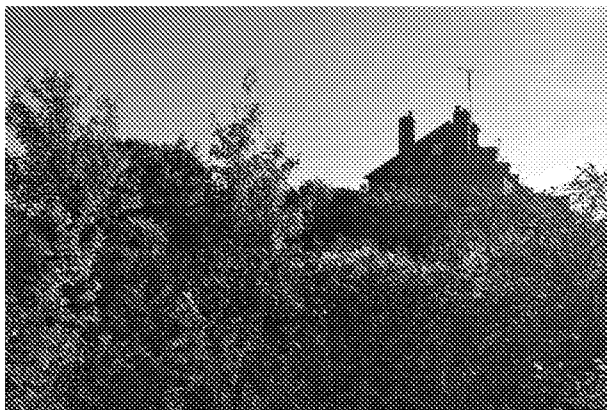

Specification – (See photos below and area highlighted on Google Earth)

G1 – Group of mixed species trees, shrubs and bramble; area approx. 4000m²

Remove all self-set trees and vegetation consisting of Buddleia, Bramble, Silver Birch, Ash and Goat Willow to ground level to facilitate construction of new properties.

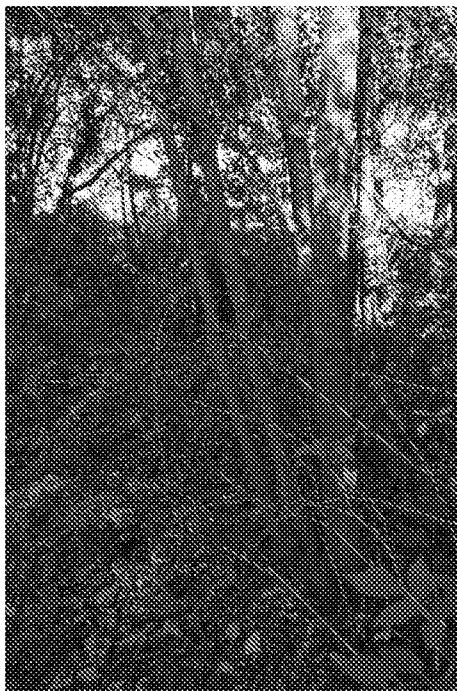

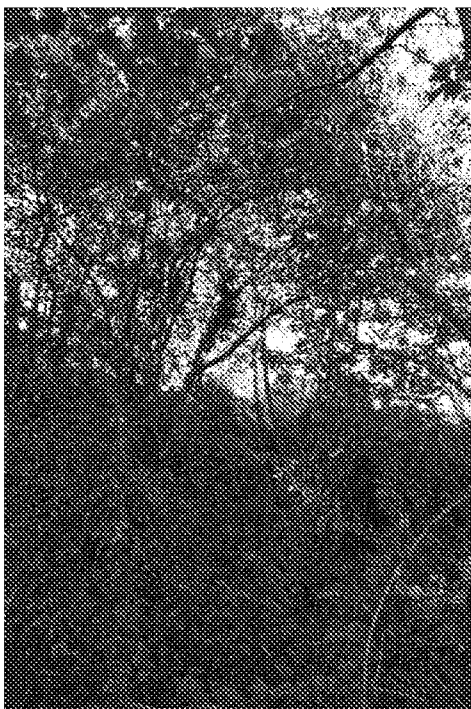

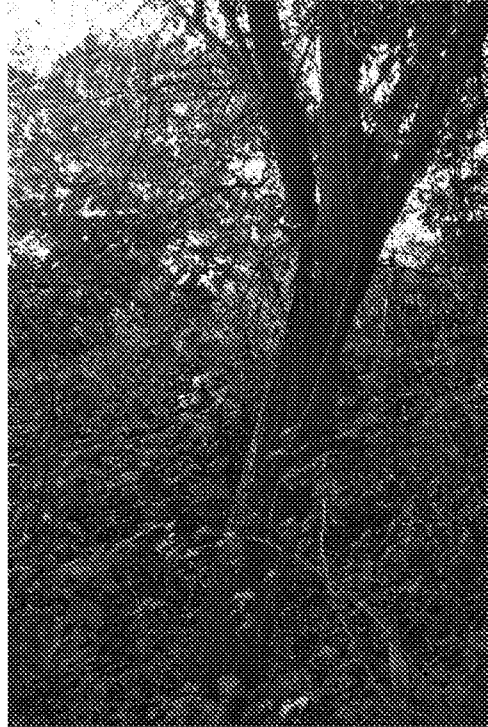

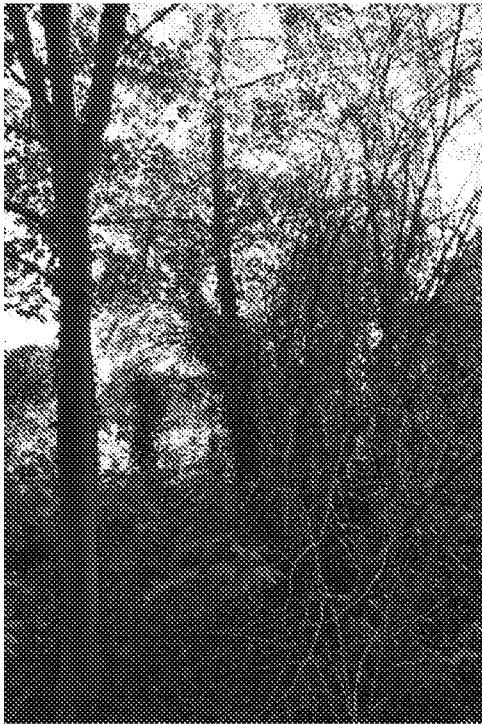

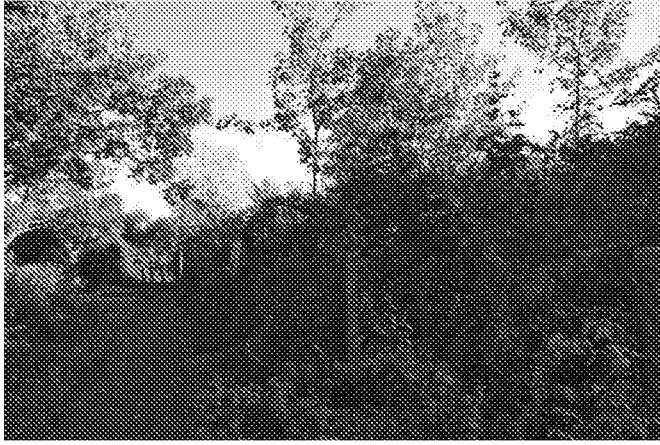

Arising Waste

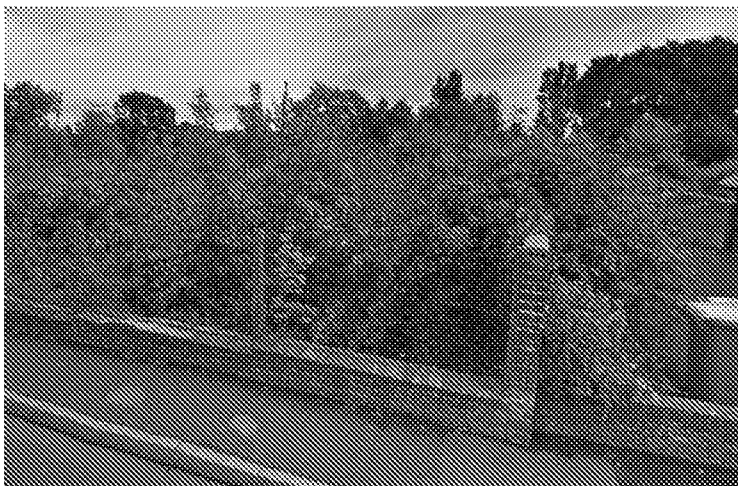

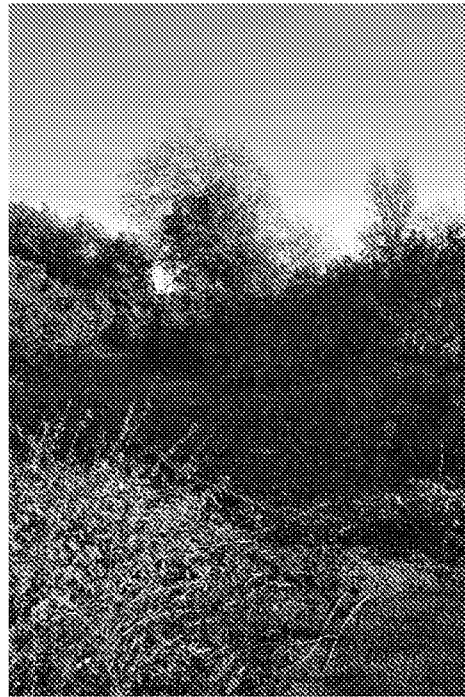

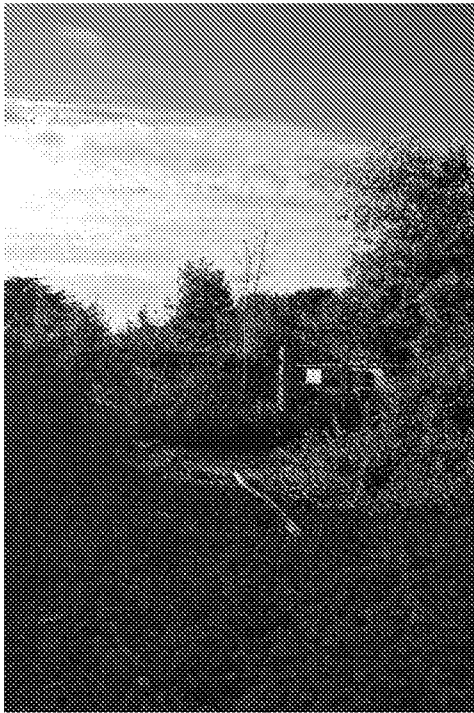

All arising woodchips and mulch will remain on site.
Large logs will be removed from site.

Directors: A J Farquharson,

Registered in England Company Number: 5781560
VAT Registration Number: 883 9191 75

Site Access Gate

Event – 176322

- Please note:**
1. Access arrangements to site are the responsibilities of others
 2. Should any needles or 'sharps' be found during the operations operatives will be instructed to stop works until they are removed by others; incurred costs will be charged
 3. Incurred costs will be charged in the event of works not being able to proceed due to no access to work site being provided in accordance with the approved works 'method statement'.
 4. The trees are to be accessed by means of manual climbing by qualified competent Operatives
 5. All tree works will be carried out by qualified and competent operatives from ground level.

All works shall be undertaken in line with British Standard 3998:2010 'Recommendations for tree works' where applicable.

Cost

The cost of completing the work as detailed above is:

Work cost:

See attached breakdown of costs

Cost include the supply of the following;

3 man crew

9" tracked chipper

26t plant lorry & 8t excavator/mulcher & operative

3.5t vehicle

Duration of works; 5 days

Commencement of Works

Planning of works can commence upon our receipt of your written instructions by way of a purchase order.

When planning works we must consider whether the trees have any TPO restrictions or whether they are located within a conservation area. These are to be checked prior to a date being arranged for works to be carried out.

Please Note: When checking with the local authority, if it is found that the trees are subject to TPO restrictions, (we cannot proceed without permission) – an application will need to be raised with the local authority, which can take up to 8 weeks from the date of receipt, for permission to be granted. If the trees are located within a conservation area, permission can take up to 6 weeks from the date of application. Regrowth may occur on treated stumps.

Should you wish to discuss this or any other matter please do not hesitate to contact me.

Yours sincerely

Alistair Farquharson
Director
