Subject: Proposal to build 46 flats for the elderly in Arundel

Dear Sirs

I'm writing with regard to the above planning proposal as I wish to oppose this scheme.

Young families are needed more in Arundel but have had to look elsewhere due to an inability to afford houses. We need affordable housing for them and not more flats for the elderly. Please reconsider as there is an over-supply of retirement properties already. We need to think about the younger generation and making it possible for them to rent/buy properties here.

Kind regards

Jacqueline Jermyn

Arundel resident
