RE: AB/36/18/PL..... Renaissance Planning Application

We are appalled at the idea of further accommodation for the Elderly Infirm on Fitzalan Road.

Three Stories, plus Roof will be an oppressive loss of light to the surrounding homes. Thus ruining the adjacent Street scene.

Also the noise and pollution level will increase dramatically, as well as parking needs, which will be excessive to the allocated 32 spaces.

The over supply of retirement facilities already in Arundel, of which many Apartments are unoccupied.

This we feel condemns our popular Town to being a venue for Senior Citizens with an average high income.

What are desperately needed are affordable homes for Young Families..

How delightful the sound of Children walking on our pavements as opposed to Motorized Wheel Chairs, blocking the sidewalks, with unruly driving and irregular parking procedures.

Thank You..... Gretchen Lloyd-Davies..... Resident
