Dear Stuart

Thank you for confirmation that this application is going to committee in October. I have read your report and picked up a couple of errors regarding the parking and since this is a contentious issue with the neighbours I think it would be worth correcting them:

Firstly, the 6 space we are providing are not all allocated to the new houses. As shown on the schedule of accommodation on the site plan there will be one allocated space to each new house and 3 spaces re-provided as general parking.

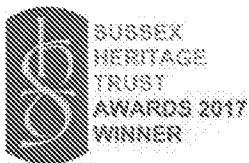

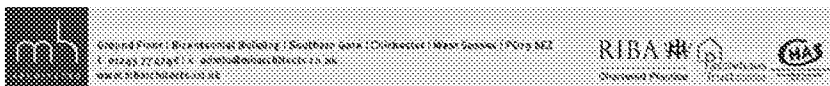

Secondly, top of page 129 states '19 spaces are marked out with lines'. There are no markings at all and parking is informal and adhoc. 19 is the maximum number of cars that could be accommodated if they were all parked efficiently.

Please let me know how these errors will be corrected.

Kind regards
