Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: AB/39/21/DOC
Site Address: 19 Maltravers Street Arundel BN18 9AP
Description of works: Approval of details reserved by condition imposed under ref AB/125/20/L relating to Condition Nos 3 - details of junction between elevation of extension & flat roof including materials, 4 - materials & finishes for brick & brick bond, 5 - details of new external door including materials, finish & method of glazing, 6 - materials & finishes for rooflight and 7 - details of internal window including proposed glazing.

Thank you for your internet representation made on 2nd May 2021 which has been recorded as an objection with the comments as follows:

OWPC35661

No elevational plans are provided showing the junction between the roof and the external wall of the proposed extension. It would appear from the Agent's correspondence that there will be a painted timber fascia but no details of its depth are provided. Given the age, style and heritage significance of the host building a better solution, rather than a fascia board, would be a small parapet with a stone or reconstituted stone coping. If the Council considers that a timber fascia is suitable then it should be ensured that it is not significantly deeper than the external rainwater gutter.

The use of pvcu rainwater goods as proposed in the agent's correspondence is not appropriate for a Listed Building and cast iron or, given that it will be attached to the new extension, black painted aluminium would be appropriate.

It is considered that the relevant conditions should not be discharged until more appropriate and acceptable details are submitted.

Your views as made above will be considered before the application is determined.
