To Whom It May Concern,

Re: Design Access and Heritage

Herricks House is a mid-terrace house on School Lane, Arundel. The building is grade II listed.

My intention is to re-paint the exterior of the house, to make good the woodwork and walls. Currently, the exterior walls of the house are blue. I intend to change the colour to be more in keeping with the properties to the left and right. Change in colour to cream (alabaster white: Dulux heritage range).

The sash windows will also be re-painted. Colour: brilliant white (Dulux). No change in colour.

The front door is currently royal blue. This will be painted oxford blue (Dulux heritage range).

I intend to erect scaffolding to the front and rear of the property whilst the work is being carried out. The scaffolding will be erected over a pedestrian access as the pavement is directly in front of the house. Scaffolding to the rear will be erected over a shared passage used by the residents of Hummingbird House and Herricks.

The works being carried out will have no effect on the building or structure. They are being carried out to protect and preserve the building.

Simon Stubbs
