

First Floor Side Extension

for the

Erection of New Shower Room

at

77 Maltravers Street

Arundel

West Sussex • BN18 9BQ

Schedule of Materials

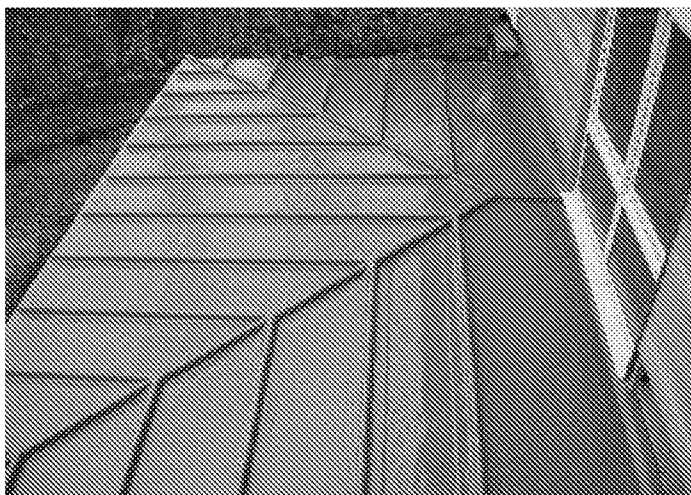

April 2018

Schedule of Materials

Roof

Description

To be GRP coating (Polyroof 185 or similar) consisting of flexible polyester resin, glass fiber strand mat and unsaturated polyester resin base. To be installed as indicated by provider, by a certified installer. To match existing rear extension in a lead look-alike finish, please bear in mind it turns matt over time. This material will also be used in the wall against the neighbouring property as it would be used in dormer cheeks.

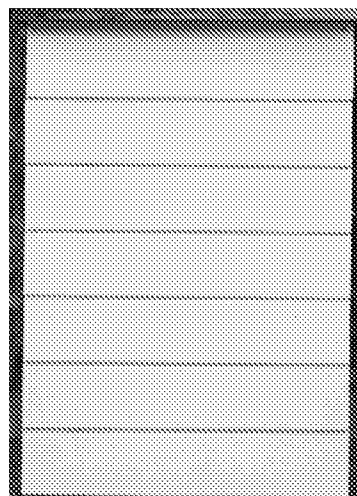

Glass reinforced polyester resin example.

Walls

Description

Factory sprayed finished Shiplap Accoya Durability Class 1 – Very durable, fire protected. Painted in off-white to match existing.

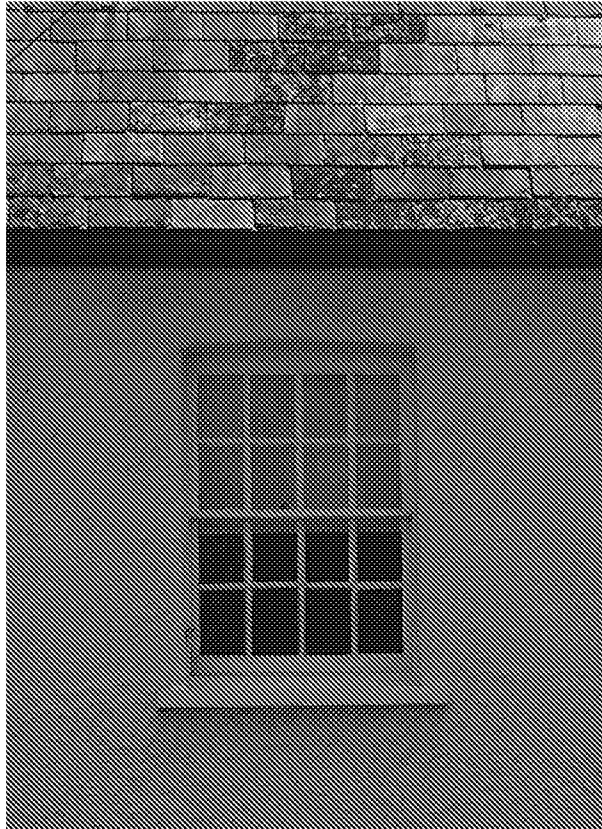

Accoya cladding example
