ACTION

Dear Ian and Martyn,

Thank you both very much for visiting Flat 2, Tower House · Arundel and for your invaluable advice.

Tower House was once and elegant family home. It was converted into offices and living space. Subsequently it has undergone more sub division that has not respected the period of the building.
Having now purchased Flat 2, we wish to put back the elegance, symmetry and proportion it deserves. We will fit deep skirtings, architraves, cornice and hopefully, 2 Gothic arches which echo the existing one from the inner hall into the drawing room.
Also, open up the fireplace ~ if it is still there!
We very much hope this all meets with your approval.
With kindest wishes,
