

Recommendation Report for Prior Notification of Work to Tree(s) in a Conservation Area

REF NO: AB/47/17/TC

LOCATION: 19 Surrey Street
Arundel

PROPOSAL: 2m height reduction & removal of bough of 1No. Scots Pine, 4m height reduction to 2No. Bay trees & pollard to previous pruning points 1No. Eucalyptus within Arundel Conservation Area.

SITE AND SURROUNDINGS

DESCRIPTION OF APPLICATION	As above.
TREES	The tree outlined in this application is located on the land at 19 Surrey Street, Arundel.
SITE CHARACTERISTICS	Dwelling.
CHARACTER OF LOCALITY	Residential.

RELEVANT SITE HISTORY

AB/91/13/TC	Crown reduction of 1 No. Eucalyptus tree to a height of 4.5 metres (to previous pruning points) within the Arundel Conservation Area	No Objection 17-10-2013
-------------	--	----------------------------

Relevant planning history noted.

REPRESENTATIONS

Representations received:

Arundel Town Council
Parish Council - No objection.

No representations received from nearby occupiers.

Comments on Representations received:

Noted.

CONSULTATIONS

Arboriculturist

Consultations responses received:

Tree Officer -
Scots Pine

- Bifurcated with an open fork but outwardly sound and healthy.
- In my opinion they would be better off removing the small diameter stem and reshaping the other larger stem because it will be easier to shape this one up than the leaning acute angled smaller one and also it will make a small wound giving the tree a better chance to heal rather

than decay at this point.

Bay Laurel

- This is a small tree which is in good health with vigour and vitality.
- It could be reduced down to hedge height but my advice would be to keep at 4m height for aesthetic reasons.

Eucalyptus

- This is a medium sized tree which is in good health with good vigour and vitality.
- It has been heavily topped out in the past and this has resulted in a mass of regrowth that makes up the new crown - this is a quick growing species that is too large for a garden of this size so I can see why they want to pollard it and think this a sound a supportable policy for the future.

Conclusions

- The pruning works proposed for the Scots Pine and Bay exceed what I would have recommended.

Recommendations

- In order to prevent the works from taking place and having control over them a TPO would have to be made and this is not justified in my view so they are free to carry out the works as described in their notification.

Comments on Consultation responses:

Comments noted, as there was no objection the applicants can carry out the works.

POLICY CONTEXT

Private Street
Conservation Area
Tree Preservation Order

DEVELOPMENT PLAN POLICIES

[Arun District Local Plan 2003:](#)

PLANNING POLICY GUIDANCE

NPPF	National Planning Policy Framework
NPPG	National Planning Practice Guidance

POLICY COMMENTARY

The above policies are general and, other than online Planning Policy Guidance under references ID 36-090-20140306 and ID 36-091-20140306, are not specific to trees.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 211(1) of the Town and Country Planning Act 1990 states:-

'Subject to the provision of this section and Section 212, any person who, in relation to a tree to which this section applies, does any act which might by virtue of Section 198(3)(a) be prohibited by a Tree Preservation Order shall be guilty of an offence.'

It is a defence to have provided notification to the Local Planning Authority 6 weeks in advance of any works. This is to enable the Local Planning Authority time to consider making a Tree Preservation Order.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

Following the comments of the tree officer, it is recommended that no objection be raised.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

In assessing this proposal neutral impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

RECOMMENDATION

NO OBJECTION

- 1 **INFORMATIVE:** The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.
- 2 **INFORMATIVE:** This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation

(Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.
