Hello again Iqraa.

I'm really sorry! this is extremely frustrating. I had triple checked that they were to scale when I sent them so I have no clue what's happening here.

This time I have printed them on paper first, and these have all printed exactly to scale. If there is still a problem then frankly I'm out of ideas,

With regard to the elevations, I have found an error on the North elevation existing with two windows and the porch, and have corrected this. If you still see an issue then I think we need to discuss on the phone (I did call earlier but unfortunately I missed you.

Sending here everything again, hopefully corrected for scale and errors.

Dear Jon,

Thank you for providing the plans. However, they do not measure to scale. Along with this, the windows/doors measure inconsistent between the plans and elevations. Please review and amend.

Kind Regards

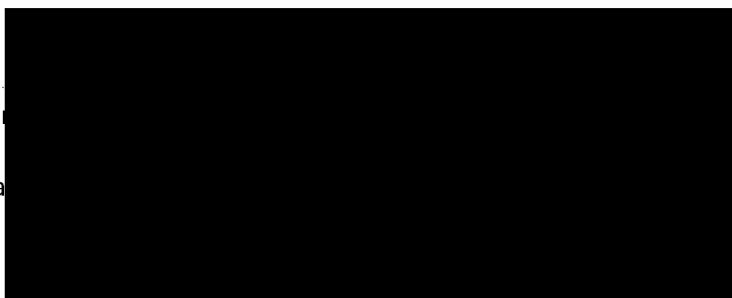

Iqraa Malik

Good morning Iqraa.

Please find attached all plans, elevations, and 3d images to be included in the above applications.

Please let me know if you need anything else.

Best regards,

Jon
