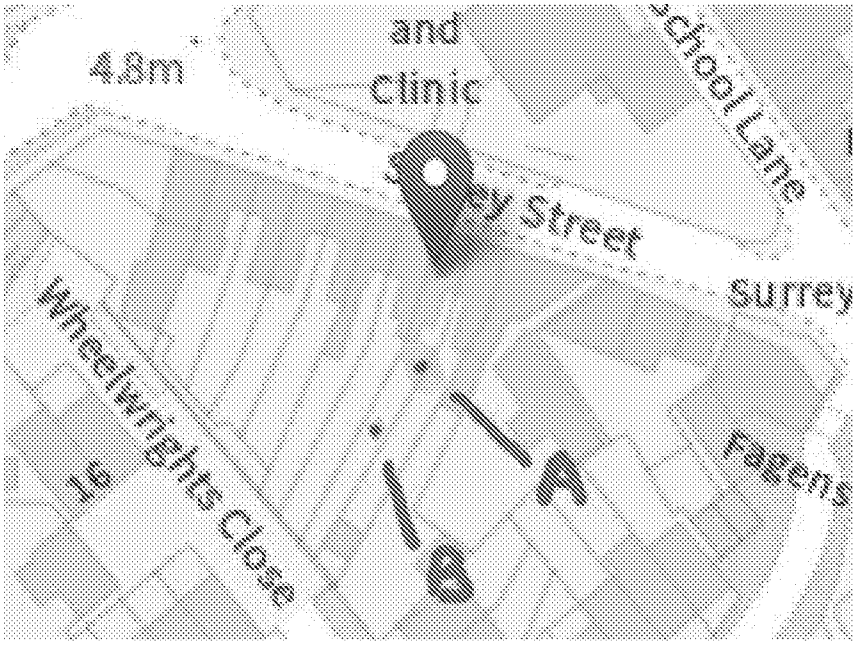
Document: Apr21-11SS-Tree Location Sketch & Statement of Work

Location of Tree:
On the boundary between 9 & 11 Surrey Street. Trunk sits in 11 Surrey Street.



Statement of works:
Removal of whole tree 'A' (Eucalyptus Gunni)
Removal of whole tree 'B' (Cypress)

Tree 'A' is unsuitable for where it is – it is too big and too fast growing, is showing some signs of decay and the root system is likely to cause problems in the future.
I have been advised on this work by my agent:
Tree Rangers, 8 Ancton Way, Elmer Sands, Middleton on Sea, PO22 6JN. (Graham, [redacted]

Tree 'B' is in the middle of a very narrow garden so is disrupting use of the garden. The garden is being redesigned and will include pleached trees at the edge.

Both trees are owned by my neighbour at 11 Surrey Street (Tracy Walker) but as this impacts both of us, we have separately agreed that she is happy for me to coordinate the works.
