

Conservation Roof Window

The Keylite Conservation Roof Window is designed to complement both renovation and new build projects in a traditional site.

Features

- ▶ **Traditional Features** - The black central Georgian bar and low profile external flashing helps maintain the traditional character of the building, whilst still accommodating the flow of natural light to the interior below. The Georgian bar can be removed upon request.
- ▶ **Classic Design** - While traditional in its external appearance, the standard Conservation Roof Window benefits from all of the advanced Keylite features listed below.
- ▶ **Flick-Fit Brackets** - Keylite's unique Flick-Fit brackets are prefitted so you can lift the window straight from the box to the roof and simply select the setting for tile or slate.
- ▶ **Sash Finger Springs** - The sash hinge finger spring allows the sash to be installed back into the frame in one smooth effortless motion.
- ▶ **Recessed Fit as Standard** - Every Keylite Roof Window is recessed as standard, sitting lower in the roof than ever before.
- ▶ **Integrated Thermal Collar** - Unlike other roof windows, Keylite's thermal collar is integrated into the frame.

The collar is activated by simply pulling the release tabs for a fast insulation solution, combating cold bridging.
- ▶ **New Profile Hood** - Keylite's new hood features a more sculptured design, enhancing its appearance in the roof.
- ▶ **Click-Fit Hood** - Simply click the hood under the hood hooks and secure into position by clicking the hood in at each end. The cover flashings now require 50% fewer screws than before.
- ▶ **Warm Edge Glazing** - Every Keylite Roof Window now has a warm edge glazing unit as standard, to enhance the windows performance and reduce the occurrence of condensation.
- ▶ **All Weather Ventilation** - Keylite Roof Windows all provide trickle ventilation, even with the window fully closed and securely locked. The built in ventilation filter ensures no insects pass into the room, only clean fresh air.
- ▶ **Ventilation handle** - Keylite's slimline ventilation handle has a new contemporary style, designed to provide comfortable opening of both the window and the ventilation flap.
- ▶ **Thermal Insulation** - Keylite have engineered thermal blocks of insulation into the roof window to further enhance its performance and combat against cold bridging.

Installation and Accessory Products

- ▶ **Flashings** -
 - Single Installation:
 - Tile (CW-TRF)
 - Deep Tile (CW-DTRF)
 - Slate (CW-SRF)
 - Plain Tile (CW-PTRF)
 - Corrugated Roof (CW-CRF)
 - Combination Installation:
 - Combi Tile (CW-CTRF)
 - Combi Slate (CW-CSRF)
 - Combi Plain Tile (CW-CPTRF)
 - Bi-Lite Tile (CW-BLTRF)
 - Bi-Lite Slate (CW-BLSRF)
 - Quad Lite Tile (CW-QLTRF)
 - Quad Lite Slate (CW-QLSRF)
- ▶ **Additional Installation Products** -
 - Underfelt Collar (FC)
 - Vapour Collar (VC)
- ▶ **Accessories** -
 - 2 metre window pole (WP2)
 - 3 metre window pole (WP3)
 - Solar Powered electric kit (KCS)*
 - Premium electric kit (PEK)*
 - Standard electric kit (SEK)*
 - Opening restrictor (OR)
 - Security lock (SL)
- ▶ **Blinds** -
 - Integral Blind (I)
 - Dim out Blind (D)
 - Black out Blind (B)

*Available on CP windows ONLY

Application

- ▶ Keylite recommend installing the window so that the frame top is between 1.85 - 2.20m above the floor for ease of operation.
- ▶ For installation of roof windows above 2.2m Keylite also recommend electrical operation and a laminated inner safety pane.

Operation

- ▶ **CWTCPC/CWWCP/CWPCP** - The Keylite Conservation Centre Pivot Roof Window is operated manually as standard, through the full width use of our ventilation handle, located along the top of the sash. Electric operation is also available as an additional accessory.
- ▶ **CWTTTH/CWTTFE/CWPPTH/CWPFE** - The Keylite Conservation Top Hung/Fire Escape roof window is operated manually as standard, through rotating the handle, located along the bottom of the sash.

Guarantee

- ▶ **10 Years** - Keylite's hassle free guarantee on windows and flashings.
- ▶ **3 Years** - Keylite's hassle free guarantee on blinds, accessories and electrics.

	White Finish									
	Note: To order White Finish please insert the reference "W" to the code ie. CW WCP 04 HT.									

Note: Other sizes are available, please contact the Keylite Sales Team for details of full range.

Thermal Performance

		Hi Therm [HT]	Triple [KTG]	Integral [I]	Frosted [T-FR]
Window U value	U _w [W/m²K]	1.3	1.0	1.4	1.3
Centre pane U value	U _g [W/m²K]	1.0	0.6	1.1	1.0
Top Hung/Fire Escape U value	U _w [W/m²K]	1.4	1.1	1.4	1.4

Glazing

Hi-Therm (HT) - Double glazed, toughened outer pane, argon gas filled cavity, laminated inner pane with enhanced noise reduction.

Triple Glazed (KTG) - Triple glazed, toughened outer pane, krypton gas filled cavity, float centre pane, krypton gas filled cavity, laminated inner pane with enhanced thermal insulation.

Integral (I) - Double glazed, toughened outer pane, argon gas filled cavity with integral blind, laminated inner pane.

Frosted (FR) - Double glazed, toughened outer pane, argon gas filled cavity, frosted float inner pane.

Note: Self-cleaning glass available upon request. For further information, please contact the Keylite technical team.

Maintenance

- ▶ The glazing pane of a Keylite Centre Pivot Roof Window can be cleaned with a soft, clean cloth/chamois or non-metal squeegee. Clean water will be sufficient for cleaning the pane.
- ▶ The sash can be rotated through 180° where the outer pane can become available for cleaning once locked in position using the plastic locking mechanism located along the top of the sash.
