Product Information

JELD-WEN Internal White Moulded Unfinished Bostonian 44mm FD30 Fire Door

JELD-WEN is the UK's largest manufacturer of quality timber interior and exterior doors. JELD-WEN has an enviable reputation built on guaranteed quality, performance and reliability and with all of their products sustainably produced, you know you are buying a quality door that will last.

This Bostonian door offers 30 minutes of fire protection and features a contemporary, elegant 6-panel design. This door is versatile as well as safe – you can stick with its white woodgrain finish or decorate it to match your room.

It is essential that the door is completely finished on the two faces and all FOUR edges plus any cut-outs for locks, handles and hinges etc. Prior to finishing or sealing, lightly sand any handling marks. Usually, 3 top coats are satisfactory but we strongly recommend that you treat this door in accordance with the paint manufacturer's instructions. A light sanding between coats will provide the best finish. Adequate drying time must be allowed between each coat. Failure to seal the doors accordingly will invalidate any claims.

With a great range of door styles to choose from, we are sure you will find the perfect doors for your home.

Additional Information

- Material: White Moulded
- Finish: Unfinished, ready to stain or paint
- Core type: Fire Core
- Fire door: This door has an FD30 fire rating, lasting 30 minutes against a fire
- Panels: 6 panels
- Trimming: No allowance
- FSC Certified: The timber used in this product is FSC Certified
- Recommended ironmongery: 3x CE internal fire safety hinges
- Part M: 838mm doors comply with Mobility Part M building regulations
