Dear Anita

I confirm that I would like you to accept the revised acoustic report as an amendment to the current Planning Application.

Also happy to agree extension of time to 4 October as requested.

Kind regards

~~

Dear Mr Clements,

Please can you advise if you would like me to accept this amended noise assessment as a substitute for the original and I will then forward it for processing and re-consult with environmental health. To

facilitate this would you also agree to a further extension of time on the application until 04-10-2018.

Regards

Anita Gardner

Anita

Further to my discussion with Carol Reynolds yesterday I would like to confirm the following:

For the recent planning application at Butlers I completed a noise assessment report which detailed the proposed changes to the plant at Butlers. At the time I felt that the report should try and detail the history of what has happened. However at Carol's request I have simplified the report.

The attached report assesses the plant noise as it will be if this most recent application is accepted. The plant is not yet in the locations detailed in the report as I understand that Butlers would like to move the plant to the final locations after planning permission has been granted.

The revised report hopefully helps clarify the situation in terms of noise impact. I have added some extra detail to the model and report based on my discussion with Carol.

Sacha/Clint

The report detailed the point that, as stated by Butlers, the AC plant will be switched off at around 22:30hrs to avoid noise impact for NSRs overlooking the AC plant on the flat roof. After 10:30Hrs the existing noise level drops making the AC plant noise more noticeable.

Carol stated that if possible you should state your intentions, to switch off the AC plant at 22:30Hrs, in writing to the local authority.

I hope this is clear and acceptable.

Many thanks

George
