Dear Kathryn Welch, I trust you received the copy email from Martyn White ok.

On another point regarding the chimney stack, in the application I requested that this would, in effect, be conditioned so that when scaffolding is erected we can get an engineer access to inspect it. At that point we would know if repair is possible and if not then rebuild may be necessary. Whatever the result we would supply a detailed report and proposal. I am worried now in case this is not an option that you can provide and so, if not, can you only approve the repairs and if rebuilding is required we would need to re-apply.

Kind regards
Graham Nicolls
