Morning David,

Following our conversation this morning it has come to my attention that the ecological survey report undertaken by Abbas Ecology for the site at Blastreat Limited, Arundel (AB/77/17/PL) doesn't include both areas of the site. The survey doesn't include the house Greenhurst next door. Because the survey is uploaded in black and white, this wasn't picked up earlier. We require that Prior to determination an extended phase one habitat survey is undertaken on this part of the site to determine if there is potential for protected species. If there is potential for protected species then further surveys would be required. These surveys plus any mitigation strategies required will need to be submitted as part of the planning application prior to determination. Surveys.

If you need any further information just let me know.

Many Thanks

Liz
