Environmental Health:
Please add the following conditions

Construction Management Plan.

No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to and approved by, The Local Planning Authority. The Approved Plan shall demonstrate precautions to be taken to minimise the potential disturbance to neighbouring residents during the demolition/construction phase of the development, particularly in respect to noise, vibration and dust and be adhered to throughout the construction period. The Plan shall provide for :

- a. An indicative programme for carrying out the works
- b. The arrangements for public consultation and liaison during the construction works.
- c. Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method should foundation piling occur, the careful selection of plant and machinery and use of noise mitigation barriers.
- d. Detail of any flood lighting, including location, height, type and direction.
- e. The parking of site operatives and visitors
- f. Loading and unloading of plant and materials
- g. Storage of plant and materials used in construction and development
- h. Wheel washing facilities
- i. Measures to control the emission of dust and dirt during construction

Reason: In order to safeguard the amenity.

Hours of operation: No machinery shall be operated, no process shall be carried out and no deliveries taken, or despatched from the site outside the following times:-

7:00 to 18:00 hours on Mondays to Fridays inclusive; 8:00 to 13:00 hours on Saturdays: Not at any time on Sundays, Public or Bank Holidays.

Reason: In the interests of the amenity

Lighting – External lighting in association with this development shall comply with the institute of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Light, Obtrusive Light Limitations for Exterior Lighting Installations for Zone E2 - Rural

Reason: In the interests of the amenity

Electrical Vehicle Charging Points

Environmental Health now has a requirement that each home should have an Electric Vehicle charge point. A suitable number of vehicle charging points must be installed.

Reason: Petrol and diesel cars and vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality.

Informative

Noise:

There needs to be better description of how surface and foul water from this development will be dealt with. I note complaint from neighbouring residents re the capacity of mains drains to deal with the existing foul/surface water disposal to mains drains. Increased use of any nearby pumping station must be taken into consideration in respect of noise which may be generated from this source. An acoustic Report may be required.

Reason: In the interests of the amenity
