Subject: Prior Notification of Works to Tree(s) In A Conservation Area - AB/7/26/TC

Reference: **AB/7/26/TC**

Proposal: Prune back 1no. yew tree to boundary (applications address) from 5m to 3m in width within the Arundel Conservation Area.

Location: 5 Surrey Street, Arundel, BN18 9DT

I undertook a desktop review on 16th March 2026, which was adequate for me to determine this Town & Country Planning Act 1990 (as amended) s211 Notice.

I am satisfied this work will not result in harm to the character or appearance of the conservation area.

Conclusion

I raise **No Objection** and see no reason to make a Tree Preservation Order.

Recommended INFORMATIVE: Hard pruning creates numerous and/or large wounds, incurring a physiological stress which may affect long-term health and vitality. The optimum time to prune yew is summer (late) or winter (late).
