

Hi,

Please upload the attached amended plans for the above application.

With thanks,

David Spring B.Sc, M.Sc, M.A

David,

I hope you're well.

Further to our recent email exchanges and the comments from the LHA I am pleased to attach the updated suite of drawings demonstrating the way in which all outstanding highways and access matters are to be addressed.

Key points:

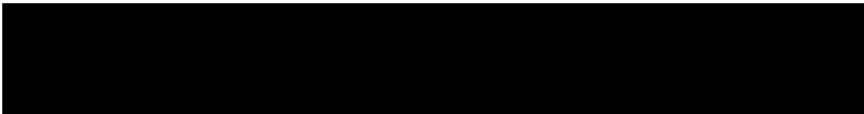

- The footway at the front of the site has been widened to 2m as required;
- A segregated footway is now provided along the access road – no condition should therefore be required;
- Provision is now made for visitor cycle parking; and
- The revised elevations now demonstrate that the clearance height of the bridge linking the raised deck will be minimum 2.5m.

I trust that this information responds fully to the outstanding queries of your highways colleagues.

On this basis I assume that you now do not require any additional information to allow you to pull together the final consultee responses to allow you to determine that application. If, however, there is anything outstanding please let me know as soon as practical.

I would be grateful if you could confirm receipt of this email in the first instance.

Alex
